Hampton

Linen Glazed

Sophisticated yet comfortable, Hampton Linen Glazed graces your kitchen with elegance and casual flair. Hampton is a soft white door with subdued detailing enhanced by a warm glaze, evoking the comfort of a French Country kitchen. Hampton Linen Glazed is the perfect cabinet to celebrate your lifestyle and spark your creativity.

Hampton Linen Glazed features premium MDF doors and drawer heads, preferred as a superior surface for painted styles. Hampton offers all wood case construction with finished plywood sides, solid wood dovetail drawers, full extension, under mount soft-close drawer glides, real birch veneered interiors, full overlay doors and five piece drawer head styling.

Lenox

Café Glazed

Gracious warmth and a quiet richness is the ambiance of a Lenox Café Glazed kitchen, equally harmonious as a background for daily activities or culinary celebrations. These traditionally styled cabinets feature distinctive moulding detail with a brushed glaze that highlights the appealing tones of caramel and honey.

The beauty of these cabinets is matched by solid engineering and construction, with applied moulding door and drawer heads, mortise and tenon joinery, European-design hinges and full extension, under mount soft-close drawer glides complete with solid wood dovetail drawers. Lenox Café Glazed...an inviting blend of color, texture and detailing that will make your kitchen a source of pride and endless creativity. And help create new traditions in your home.

Standard *Construction*

River Run Cabinetry's Standard Construction offers many features which are considered upgrades in other lines of cabinetry.

CASE

- ① Traditional face frame construction using select birch. Face frames are solid 3/4" thick with 1-1/2" stiles and rails. Mortise and tenon joints.
- ② Sides are birch veneered 1/2" plywood. The interior features a clear-coat finish and the exterior is stained to match the door. (Hampton interior is painted soft white.)
- ③ Shelves are 5/8" thick birch veneered plywood sealed with a clear-coat finish, adjustable and front edge banded.
- ④ For ease of installation, backs are framed with a 1/2" plywood hanging rail. Base cabinet backs extend to the floor providing optimal structural stability.

DRAWERS

- ⑤ 5/8" thick solid hard wood, dovetail joints and clear-coated. Bottoms are 1/4" birch plywood fully captured. Slides are under mount, full extension soft-close.

DOORS

- ⑥ Premium full overlay door styles. Butt doors on all sizes up to 39" wide.

HINGES

- ⑦ Hinges are 6-way adjustable.

ROLL TRAYS

- ⑧ Optional roll trays. All wood dovetail construction.

Dillon

Café Glazed

Dillon Café Glazed was created to enhance your everyday kitchen activity... the perfect backdrop for a day of creativity, or a restful cup of tea. Dillon Café Glazed combines crisp, clean surface detailing with the warm tones of light cinnamon. Confident yet understated, these cabinets are superbly crafted and designed to fit your lifestyle, your way.

Dillon Café Glaze is a traditional reveal style featuring mortise and tenon construction. Drawer heads are solid slab construction. Doors and drawers come with a back bevel for ease of opening and are accented with glazed detailing.

Species: Premium Birch
Drawer Front: Slab construction
Reveal: Traditional

Finishes

15 Step Process

1) RAW MATERIAL SELECTION

We use only premium grade wood in the making of our cabinetry.

2) PREPARATORY SANDING

All of our cabinetry is assured to have the best possible surface for receiving our finish material through a two step sanding process.

3) CLEANING

Each piece of wood is then thoroughly cleaned after sanding to maintain a consistent and uniform surface for the final beauty of your cabinetry.

4) STAINING

The first coat of finish evens the tone variations of the wood for a more harmonious finished product. The process used is a fine mist that is environmentally friendly by minimizing emissions.

5) WASH COAT

Next, a wash coat is applied to seal the first application of finish and add to the visual depth of the stain.

6) DRYING

To set the initial finish applications.

7) HAND SANDING

This step assures a smooth, level surface to receive the final stain processes.

8) WIPING STAIN

Final stain coat is applied and hand rubbed to enhance the wood grain's definition.

9) DRYING

To set the final finish application.

10) SEALANT

Sealant is then applied to assure a smooth surface texture for the top coat.

11) DRYING

To set the sealant application.

12) SANDING

Every door is then sanded again to remove any raised graining.

13) GLAZING

Our glazes add a rich patina and enhance your door's details. Depending on the technique required to achieve our handsome looks, the glaze is either detailed or hand wiped on the door to emphasize your door's character.

14) TOP COAT

This step assures the beauty of your cabinetry for years to come. Our top coat provides not only durable protection for your cabinetry's finish but also has anti-yellowing properties to keep your finish crisp.

15) FINAL INSPECTION

All of our products must pass final inspection for color consistency and quality before leaving the finish area.

Quality

We Stand Behind It

What makes your River Run cabinets such an outstanding investment? Our relentless approach to quality and craftsmanship. We use premium materials to produce your cabinets. Our construction techniques are state of the art, time honored woodworking methods. Every door, face frame, drawer head, and virtually every piece of the cabinet is inspected by our experienced Quality Control team.

WARRANTY *Our ten year limited warranty*

We guarantee your River Run cabinetry and ensure that all component parts and hardware are free from defects in material and workmanship under normal use to the original owner for 10 years. ***Visit riverruncabinetry.com for complete details.***

SUSTAINABILITY

Sustainability and the use of eco-friendly products are important to River Run Cabinetry. These factors guide our global sourcing and purchasing decisions. They also influence our distribution and shipping procedures to reduce waste and minimize non-renewable energy usage.

River Run's cabinets have been independently tested and our emission levels meet or exceed both European and current Californian standards.

Our state of the art finishing equipment minimizes the impact of our finishing process on the environment, and our manufacturing methods minimize raw material offal.
